

Documentation Forms for Organic Livestock Producers

Livestock Materials List

Use this form to list the specific materials you keep (inventory or accessible for use) for the care of organic animals and their environment. A list of materials used or planned for use should be part of your Organic System Plan (OSP), which must be updated when changes are made or at least annually.

Type of Material (e.g., vaccine, biologic, disinfectant, sanitizer, topical medication, teat dip, anesthetic, parasiticide, or homeopathic remedy; cleanser or structural pest-control materials)	Brand Name and Manufacturer	Disease or Health Prob- lem to be Prevented or Treated/In What Type and Class of Livestock	Compliance Records Kept (dates and circumstances of use if material is annotated or restricted)*
		a .	
		41	

^{*} Documentation should be available for inspection to support the information recorded by producers, including the following, as applicable: purchase receipts, labels for all inputs, and veterinary records. If prohibited materials are used to restore an animal to health (e.g., antibiotics use that results in the loss of organic status), records show how treated animals are identified and segregated.
